Equine Photographers Network

After 15 exciting and fulfilling years in the equine video business, we have decided to make 2009 our last season. A number of reasons prompted this decision, among them: the aging of equipment (and ourselves); the difficulty finding experienced, available assistants; and the industry announcement that VHS tapes would no longer be manufactured. We are focusing on our photography business and hope that you will turn to us for your portrait and marketing photography needs. We will miss you all tremendously and thank you from the bottom of our hearts for a long, wonderful, blue ribbon ride!

Best wishes to everyone – we hope to see you around!
