

Welcome to the World of Morgan Horses

The participating members of the New York State Morgan Horse Society invite you to share our enthusiasm. Originating in New England over 200 years ago, the Morgan horse history parallels that of the United States. They played an important role in the Revolutionary and Civil Wars and the westward growth of the nation. The Morgan is the only breed nurtured by the U.S. Government to meet its own needs. The breed has moved from frontier days to today by adapting and evolving. Yet, the willingness and versatility of the Morgan horse remain constant. In harness or under saddle, the Morgan disposition makes it an ideal family horse. Many are raised and trained by their amateur owners. They are known for their longevity and ease to keep. They excel in many disciplines including dressage, competitive trail riding, combined driving, the show ring, trail riding, and back yard fun. Visit and see for yourself! Visitors are always welcome but please call prior to visiting. Most members have Morgans for sale or will refer you to another member if they don't have the right Morgan for your needs.

The New York State Morgan Horse Society

encourages you to visit the members and their Morgans. You may also contact the State or National Club for more information and/or video tapes on Morgan Horses.
